DOCTORS MISTAKES Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidimagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The Dhysician, knorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better he reason of the wrong treatment, but probably worse. A proper medicine like Dr. Plerce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. THE DEBT QUESTION.

With the Littlefild report on the Virginia and West Virginia debt case in the hands of opposing counsel it is believed both sides will file immediately exceptions to the report with the United States Supreme Court .- This will bring the controversy to an issue.

.The litigation was begun in the Supreme Court itself by resson of the fact that one etste was suing another. Whatever action is decided on now that the Littlefield report is made must be taken in that court. Ohief Justice Fuller has given 30 days for the states to file exceptions to the findings. Virginia lost a hard contested point when Mr. Lit lefield found that the sinking fund and the literary fund amounting to more than \$2,5000,000, were not to be included in tre total debt Virginia owed before West Virginia became a state. West Virginia lost still more heavily, however, when the special master included in the amount expended by Virginia in the ccunties of West Virginia au item of over \$18,000,000 as interest on the public debt. Those two points may prove to be the centres of attacks on the findings. Virginia won a point when the master adopted her contention as the basis for estimating the population of the

states. After the exceptions are entered, the court will proceed to hear arguments on the disputed points and finally to give a decision in the controversy.

On the whole the report is more favorable to Virginia than to West Virginia. Ocunsel for Virginia will meet in Washington today and go carefully over be report of Mr. Littlefield. Those who are called to meet at that time are: Atorney General Samuel W. Williams, counsel for the State; ex-Attorney General William A. Anderson, counsel for the Virginia Debt Commissioner; John B. Moon and Randolph Harrison, actorneys for the certificate holders.

Judge Williams has received a copy of the report of the special master. He de the railing. Parnell, seeing what he clined, however, to discuss it, or to intiin advance of consulation with counsel, what the next move of the State would be.

The impression is that if there are any exceptions they will come for the most part from West Virginia.

It is presumed that after the filing of exceptions a date will be set for final argument before the Supreme Conit. It is believed that the time is not far off when a final decision may be expected.

THE SOFT DRINKS BILL.

The general assembly enacted a bill which was intended to put a tax on the soft-drink establishments, and in doing that it also put through a measure which was and is "loaded," as it appears in the acis approved by the presiding officers of both Houses and which received the signature of Governor Mann March 10th.

The bill was introduced late in the session by Saustor Owen, the successor of Governor Mann in the Senate, I bad as its title "A bill to require manufacturers, bottlers and dealers in soft drinks to pay a license tax." Innocent enough, on its face. The bill was sent to the finance committee, and when that body got hold of the measure it was supplanted and a substitu e was re-

As the bill stands on the statute books today the sods water men and others who handle soft drinks will be per bottle, allowed to dispense soft drinks as before, and in addition they will be able to supply to their customers and a thirsty public pure apple cider when t is shown that such cider is made from

he pure juice of the apple, What is more, there is no provision of law whereby the alcoholic strength of the cider is to be restricted, and the fact is that some cider, when it is properly sged, contains about three times the percentage of alcohol that is contained in the standard beers sold on the markett.
